

## CC-2 Water + Conduction Cooled Capacitors

CC-2 series Water + Conduction Cooled Capacitors are high current, high power resonant capacitors with Copper plates as terminals along with water cooling connections.

### Specifications:

Capacitance	: 5.0 $\mu$ F to 20 $\mu$ F
Rated Voltage	: up to 1200Vrms
Dielectric	: Metallised Polypropylene Film
Max current	: up to 1700 Arms
Working frequency	: up to 39kHz
Max Power Rating	: 1000KVAR
Temperature Range	: -40°C to +85°C
Standard reference	: IEC 61071

# ADVANCE COMPONENTS AND INSTRUMENTS PVT. LTD.

Mfrs. of PLASTIC FILM CAPACITORS & EMI NOISE FILTERS

Registered Office & Factory :  
3A-3A/1, Belavadi Indl Area, Mysore - 570 018. INDIA

ISO 9001 : 2015  
ISO 13485 : 2016

Standard range of Capacitors:

Capacitance	Tolerance	Rated Voltage	Max. Current	Max. Power	Max. Working Frequency	W±2	L±1	H±2
µF @ 1kHz	%	Vrms	Irms	kvar	kHz			
5.00	10	1000	1100	1000	39	106	124	106
10.00	10	800	1250	1000	25	106	124	106
15.00	10	700	1450	1000	22	106	124	106
20.00	10	600	1700	1000	22	106	124	106

Note: Other capacitance & current rating , custom made capacitors available on request
